

Please note the following:

- We believe the family should be the first resource for funding their children's education. Each family is expected to pay a portion of the cost of their student's education or find resources apart from financial aid to fulfill their obligation to the school.
- In order to be considered, all financial obligations must be current and student registration for 2020-21 must be complete (including payment).
- Due to a limited budget and the growing number of families requesting assistance, all qualified need may not be met. Money awarded each year is independent of prior awards. Previous receipt of aid does not guarantee equal or continued assistance.
- In order to assist as many families as possible, we will fund no more than 50% of any one family's tuition costs (including parish support, family discounts and other rebates).
- Any family receiving financial aid does not qualify for early payment discounts if choosing Option #1 (full-pay) or Option #2 (semi-annual pay).
- Financial aid is awarded for tuition only and does not cover student fees, lunches, after school program, or any other incidental expenses.
- Failure to provide all of the necessary information needed to complete the application process may result in your family not receiving financial aid.
- In order to be assured of consideration, families must be timely and thorough in completing the application process. An application is considered complete only when FACTS Grant & Aid has received the all supporting documentation.
- Should any of the information included in the application or any supporting documents be found untrue, the school reserves the right to rescind the full amount of assistance and demand full payment of all tuition and fees.
